## University of Wisconsin System Campuses Expand Disabled Parking Privileges

WE DID IT BILL, NOW YOU'RE A LAW!!!!!! Thank you for your tireless advocacy and support of no-nonsense legislation! On December 6, 2023, Assembly Bill 49 was published, now allowing handicap-accessible parking for no extra cost at all University of Wisconsin (UW) System campuses. After receiving a complaint concerning the extra fee UW-Milwaukee required to park in their accessible parking spots on Voter Voice, PVA-WI National Director and Government Relations Director Scott Griffith contacted

Wisconsin state legislators to stop this illogical law throughout all UW System campuses.

Now, an additional UW-Accessible permit is not required to park in UW-Disabled spaces and other spaces reserved for disabled drivers (with a 30-minute or higher time limit) on UW System campuses. We would also like to give a special thank you to Rep. William Penterman and Senator Patrick Testin for the passing of this bill.

Assembly Bill 49 has been in the works since 2020, and we are excited that it began with PVA-WI's Voter Voice! Voter Voice allows you to act on vital issues affecting Veterans with spinal cord injury/disease and people with disabilities. With Voter Voice, you can message U.S. Representatives and Senators about your topic of choice. You can access Voter Voice through the PVA Action Center on our website or by scanning the QR code above. Voter Voice is open to all U.S. citizens. You, too, can take action and make a change with PVA-WI Voter Voice!

## PRESIDENT'S REPORT

Dear PVA-WI Community,

I hope this message finds you well and filled with the same excitement and gratitude that I have in my heart as I step into my new role as the President of the Board for Paralyzed Veterans of America - Wisconsin (PVA-WI). It's an honor to introduce myself to you, and I am thrilled to be a part of this incredible community.

As some of you may already know, I have had the privilege of serving as the Vice President on our board for the past year. During that time, I have witnessed the dedication and passion of our members and the remarkable achievements we've accomplished together. Now, as your new Board President, I am committed to continuing the incredible work that we've begun.

Let's take a moment to celebrate the milestones we achieved together in the past year:

- 1) Caregiver Respite Program: We made significant strides in supporting our caregivers, providing them with essential respite services, and acknowledging their invaluable contributions to our veterans' lives.
- 2) Increasing Membership: Our efforts in outreach and engagement have led to a growth in our membership, broadening our community and giving a stronger voice to those we serve.
- 3) Meeting All Fiscal Year Financial Goals: Thanks to your dedication and generous support, we not only met but exceeded our financial targets, ensuring the sustainability of our programs and services.
- 4) Building Community Partnerships: We expanded our network of partnerships with local organizations, strengthening our ability to serve our veterans effectively.
- 5) National Veterans Wheelchair Games: It is with immense pride that I share that we sent a record number of novice athletes to the National Veterans Wheelchair Games, showcasing the incredible talent within our community.

The highlight of this year has undoubtedly been our 2023 Annual Membership Banquet. It was a fantastic celebration of our collective achievements, a time when we all came together to cherish our successes and the bonds that unite us. I want to express my heartfelt gratitude to everyone who participated, making it a night to remember.

## 2023 Women Veterans Empowerment Retreat

Board Member, Angela Walker, participated in PVA's Annual Women Veterans Empowerment Retreat. Please read about Angela's experience at the 2023 WVER below.

I am appreciative to the PVA for allowing me to attend the 2023 WVER. Thank you to the leadership team for sending me to represent PVA-WI at this great event. The conference was well attended, with 45 women representing PVA organizations from various parts of the United States. The three-day event was filled with classes on the history of Paralyzed Veterans of America, specific training in growing membership, and some extra fun activities in the evening. I learned a great deal about PVA.

Overall, the WVER was an amazing and enjoyable experience, I am looking forward to continuing my support and service to PVA-WI. I look forward to assisting our board in educating people about PVA, fundraising, and supporting membership outreach for men and women veterans in Wisconsin.

## VA Home Loans - Struggling with Mortgage Payments

By Brenda Stencil, NSO

Many servicemembers, veterans, and eligible surviving spouses become homeowners through the Department of Veterans Affairs (VA) home loans program. Homeownership provides a place to grow your wealth, enjoy greater freedom and to call your home, your own. However, the COVID-19 pandemic significantly impacted veterans with a mortgage loan guaranteed or insured by the VA. The pandemic left many veterans with reduced income or unemployment finding themselves among the thousands who couldn't keep up with their mortgage payments. Over the past year, the VA has been able to help more than 145,000 veterans and their families retain their homes and avoid foreclosure. But more veterans still remain out there struggling to make their payments.

The VA continues to press upon the issues surrounding the effects of the pandemic on home loans. Recently, the VA released official guidance to mortgage servicers calling to pause foreclosures of VA-guaranteed loans for 6 months, through May 31, 2024. It is expected that any foreclosures that have been filed since November 17, 2023, will be put on hold, along with any other in-process or upcoming foreclosures on VA-backed loans. The foreclosure process will be paused for these veterans through May 31, 2024, giving the VA additional time to help these veterans find solutions to stay in their homes.

During the pandemic, the VA established home retention options including COVID 19–Refund Modification, COVID forbearance, and loan deferment. Some borrowers may have benefited from these options; however, due to our nation's higher interest rates, one retention option such as the COVID forbearance, is less likely to be considered a good financial decision today. In addition to pausing foreclosures of VA-guaranteed loans through May 31, 2024, the VA is also extending the COVID-19 Refund Modification through May 31, 2024. The COVID-19 Refund Modification program allows more veterans to get a zero-interest, deferred-payment loan to maintain affordable monthly payments.

The VA is initiating a new home retention program for borrowers and VA-guaranteed loans that are facing foreclosure, and do not qualify for a traditional loss mitigation option called VA Servicing Purchase (VASP). Through VASP, VA will purchase defaulted VA loans from mortgage servicers, modify the loans, and then place them in a VA-owned portfolio as direct loans. The goal of this program is for the VA to work with veterans experiencing severe financial hardship to adjust their loans – and their monthly payments – so they can keep their homes.

### 2024 COLA ANNOUNCED FOR VETERANS AND SOCIAL SECURITY BENEFITS

The Social Security Administration (SSA) announced on October 12, 2023, that those receiving Social Security benefits will receive a **3.2% cost-of-living adjustment (COLA) starting in 2024**. Although this increase may seem low compared to 2022 and 2023, it's still above the average of 2.6% for the prior 20 years.

In addition, VA disability checks will also be increasing in 2024. VA disability checks will go up about \$5.31 per month for those with a 10% rating and \$115.90 for those rated at 100% who don't have dependents. ### Winter Clothing Tips for Wheelchair Users

The end of winter is near; however, the cold is not yet gone! Being a wheelchair user in the winter brings on extra challenges, although Bliss Welch offers some tips to *Life with Quantum* on how she manages to dress warmly and comfortably in the winter as a wheelchair user.

#### **Hats and Scarves**

About 10% of your body heat escapes through your head. That said, you'll be amazed at how much warmer you feel when you wear a hat! In addition, if you have short hair leaving your neck exposed, there are a variety of scarves you can use to cover that bare skin up. Hats and scarves are a great way to add a sense of style and warmth to your outfits!

#### **Different Types of Sleeves**

- You might find sweaters, hoodies, bell sleeves, three-quarter sleeves, cuffed sleeves, and ruffled sleeves in your closet. However, the extra material in thick sweaters, bell, and ruffle sleeves can create large, uncomfortable bulges of material in the arms of jackets and cardigans. Three-quarter-length sleeves expose the skin of your forearms. What are you supposed to do? Do not bother finding a new wardrobe...add fingerless arm warmers! They're like socks but for the arms instead of the feet and are available in various lengths, fabrics, and colors!

#### **Try a Poncho**

Coats and jackets are great for keeping the upper body warm. Despite that, Welch consistently felt that the range of motion in her arms was restricted when wearing a coat or jacket. Instead, she transitioned to wearing ponchos and wraps that she could enjoy in several different fabrics, colors, and styles. Layers are another great way to keep warm, but they can also restrict movement. Welch states, "To keep my clothing from being too bulky, I pair a sleeveless dress with a cardigan. If I must go outdoors, I add a poncho and still maintain good range of motion in my arms."

#### **Gloves and Handwarmers**

Consider a pair of gloves if you will be out in the cold for a long time. Like many items mentioned above, gloves come in various colors, lengths, and fabrics. Also, many gloves now come with several touchscreen fingers, so your gloves do not have to come off to use your cell phone. Plus, some gloves are heated with a USB plug. Welch says she never has to worry about her hands getting cold, thanks to the standard USB charger on her Stretto Power Wheelchair! She also discovered rechargeable hand warmers several years ago. Welch says, "The hand warmers are lightweight with an oval design that fits in the palm of your hand. These small hand warmers have several heat settings and double as a charger. Be careful though! Some hand warmers can get as hot as 130 degrees on the highest setting." ## UPDATE: Annual Clothing Allowance

VA is continuing to work on implementing Public Law 117-328 – a change to the annual clothing allowance becoming an annual continuous/recurring payment until the veteran elects to no longer receive such payments or until the VA determines the veteran is no longer eligible for such payments.

If you received a clothing allowance payment in 2022, you will receive the same number of clothing allowances in 2023 and thereafter. Veterans will no longer be required to submit applications.

The Veterans Benefits Administration and the Veterans Health Administration continue collaborating on implementing this law.

## PVA-WI Holiday Party

PVA-WI hosted its annual holiday party on Wednesday, December 13. Due to COVID precautions and policy; the holiday meal was restricted to staff and inpatients. We would like to thank Prime Minister Catering for providing the individually packaged meals and the Spinal Cord Injury Center staff for handing out gifts to the inpatients for the holidays. PVA-WI would also like to thank Kohl's Department store staff for including us in their Holiday Gift Drive and the Kohl's Veteran BRG Group for providing Foley bags.
